\* Though a feature may be listed, not all features are included. Please ensure that all the features you desire are included with your order. It is recommended that you review your order with a Silver Lake Systems Engineer during the ordering process.

### ORDERING INFORMATION

Check Weigher CWS 103

**Enter Additional Notes Here. (If more room is required attach sheet)**

**CLOSE, BUT NOT EXACTLY** what you are looking for? Don't worry. Each system is built to order. We like to call it "*Customization at no extra cost*". You are not paying a surcharge for customizing of a standard product. All you pay for is what you add. Our production system has been specially designed to handle custom systems. Tell your sales representative what you want. We'll have a quote out to you right away.

**APPROVAL DRAWINGS**  
 Approval drawings are available for each system. We encourage it. You get to review the system before we build it. Request them with the order.
